## Is Your Hair Thinning?

If so, The Florida Laser & Wellness Center can help. Using a combination of the most advanced medically designed hair restoration laser, the Halo Elite, and specialized DNA hair products, we can stop and even reverse hair loss in most patients.

The Halo Elite is recognized as the most powerful hair restoration laser available in the world.

...not all lasers are created equal. The Halo Elite is recognized as the most powerful hair restoration laser available in the world.

### What does this mean to you?

- ▶ Shorter treatment times — only 12.5 minutes per treatment
- ▶ New hair growth of 19 hairs per square centimeter
- ▶ 78% increase in hair strength
- ▶ 25% increase in thickness

### How does it work?

It's all about Photomedicine. More than 3,500 scientific studies of Laser Phototherapy (low level laser therapy) document the effectiveness of laser therapy and further studies show there is a clinical, therapeutic device capable of facilitating hair growth.

However, not all lasers are created equal. The Halo Elite is recognized as

the most powerful hair restoration Laser available in the world. The device contains more FDA approved laser diodes than any other device of its kind. More diodes mean more power and more therapy in less time.

It is the only laser system that provides complete scalp coverage for stable and consistent results. The Halo Elite has patented cooling capabilities providing more comfortable than any other device while improving the effectiveness of the treatment.

The therapy has been proven to improve and stimulate cellular metabolism while dramatically increasing blood supply to targeted areas. This unique combination is necessary to heal and restore damaged hair follicle cells.

Laser therapy is proving to be the preferred FDA approved therapy for hair restoration as Rogaine and Propecia are often not an option for many people.

### More Good News about Laser Therapy

- ▶ It's pain free
- ▶ It's surgery free
- ▶ No prescription required
