Stop Skin Aging

AminoGenesis offers Wrinkle Arrest, which has earned the AAD SEAL OF RECOGNITION from the American Academy of Dermatology for its sun-protection benefit.

Wrinkle Arrest is a moisturizing day cream with SPF 18 and broad-spectrum sun protection. It contains the AminoGenesis DermaScyne formula which helps reduce the appearance of fine lines, wrinkles, discoloration and other signs of aging. These precursors help support proteins like collagen and elastin as well as many other key proteins found in the skin. Price: \$59

For a product to receive the AAD SEAL OF RECOGNITION, it must meet the following criteria:

- ✓ Sun Protection Factor (SPF) of 15 or higher
- ✓ Evidence of broad-spectrum protection (protects against UVA and UVB rays) as evidenced by the critical wavelength method and in vivo testing using the Persistent Pigment Darkening method
- ✓ Evidence of product stability
- ✓ Absence of photo toxicity
- ✓ Complies with United States Food and Drug Administration (FDA) Sunscreen Monograph

"Mushroomy" French Camembert comes to Whole Foods

Whole Foods Market has partnered with Hervé Mons to provide an affordable Camembert. Mons selects Camembert comes from small producers near the green pastures of Normandy and then oversees the aging process.

This Camembert is truly a walk through the countryside, bursting with big mushroom-y notes. As it warms the mouth, its flavor continues to open, and an enjoyable earthy pungency is detected with the taste of grass and hay. This Camembert pairs well with a sparkling wine or a dry French cider and crusty bread.

Mons has received the highly coveted "Un des Meilleurs Ouvriers de France" or "Best Craftsman in France" lifetime award. Traditional French Camembert, made from unpasteurized cow's milk, is currently unavailable in the United States.
